Job description:
Technician -- Electro-Mechanical Production Technician

About imaging Technology international Corporation

imaging Technology international Corporation (iTi), founded in 1992 and based in Boulder, CO, designs, develops and manufactures industrial manufacturing systems that incorporate inkjet technology. It is also recognized as the preeminent supplier of development tools for the inkjet industry. iTi recently received the Frost & Sullivan 2006 Product Innovation Award for its XY 2.0 Materials Deposition System.

iTi is a fast growing privately held start-up company which has recently opened up OEM channels for its new Digital Web Press and VJET production systems. iTi supports an international customer base with more than 50% of products shipped outside the United States. The Company is seeking individuals with an entrepreneurial spirit who enjoy the teamwork and broad responsibility expected in a start-up environment.

RESPONSIBILITIES

- * Assist in building small and large scale inkjet development tools and inkjet production system products
- * Perform installation, repair, test and maintenance on multi-axis motion control systems
- * Works with mechanical and electrical engineers providing verbal and written feedback.
- * Assist in troubleshooting mechanical devices within a manufacturing environment.
- * Reports to Production Manager.

REQUIRED SKILLS AND EXPERIENCE

- * Entry level position requiring 0 to 4 years experience, assuming person has above average mechanical skills and some knowledge of electrical product assembly and test.
- * Electro-mechanical skills required. Some electronic skills and experience a plus, including wiring, PLC's, relays, motors, and sensors.
- * Ability to assess problems and provide problem solving techniques.
- * Ability to use company's tools such as drills, presses, multimeters, oscilloscopes and soldering equipment.
- * Ability to read mechanical assembly drawings. Ability to read electrical schematics a plus.
- * Must be organized, prompt, professional and efficient, with excellent attention to detail.
- * Ability to work quickly with some supervision provided is essential.
- * Must be able to follow verbal and written instructions.
- * Must be able to lift 50 pounds due to physical size and weight of company's products
- * Must be highly motivated.

EDUCATION and TRAINING

High School diploma required. AA degree and/or vocational/technical training very desirable.

Candidates should be self-directed and able to balance a team approach with personal initiative.

OTHER BENEFITS

iTi provides other exceptional benefits to our employees including medical and life insurance, holiday and Paid Time Off, Incentive Stock Options, and a 401K Plan.
